

Yashdeep Education Society

Preparing children for the future

Olympus High owes its genesis to Yashdeep Education Society- founded by Mr. Yashpal Singh Raghuvanshi, a renowned businessman hailing from the well-known Raghuvanshi family of Vidisha. The main guiding objective of the society is to promote and provide good education to the children of Vidisha and its nearby towns.

To spread the light of knowledge and to help people understand its role in making a better world- is the main objective of the society. It strives to empower children with the latest and best infrastructure and curriculum so that they can be ready to face the challenges of life.

OPENING MINDS TO A BRIGHT FUTURE

THE SCHOOL FOR HOLISTIC DEVELOPMENT FROM
PLAY GROUP, NURSERY TO CLASS XII.

Channelising the power of the mind

We can achieve more than we can imagine.
All we need is to shape the power of our mind.
At Olympus High, we nurture the inherent
capacity in each child to achieve more. We help
them with best facilities and expert guidance
so that they grow and succeed.

Free to dream and equipped to achieve

At Olympus High, education is the freedom to explore, choose and create. Our school encourages children to ask questions and find answers under the supervision and care of trained teachers. Children also imbibe human values that make them ideal humans, learners, professionals and citizens.

**GROWING UP
EACH DAY**

Physical, social and emotional development
Communication, language and literacy
Problem solving and reasoning
Creativity Moral education
Raising global citizens who respect human values

Director's message

Dear Parent,

Choosing the right school is a big decision to make. However it is more important to first ask ourselves, what we mean by schooling and education. In fact I have often asked myself “when do we call a child educated”. Is it, when he speaks good English, or when he behaves well in a public place or when he is sensitive to the world around him? The answer I always got from within is that - “a child is called educated when he becomes a better human being”. At Olympus High, we believe education prepares the child to face all the challenges with a smiling face and a brave heart. It nurtures the child to be fearless and at the same time down to earth. We believe education is a collaborative effort between parents and the school towards raising the next generation of smarter, brighter and better human beings.

Thank you for choosing this partnership with us and we are excited to see your child graduate out of Olympus High with courage, skills, innovative mindset and confidence.

Mohit Raghuvarshi
Director

Principal's message

Dear Parent,

Welcome to “Olympus High” , the playground for holistic development and an enriched quality of life. We are a school that lives each word of our vision and mission. We set the highest standards of academic achievement, intellectual growth, ethics, sportsmanship and other good qualities in our students. By combining the very best in educational practices with a holistic philosophy, we have designed a curriculum that empowers the new generation.

At Olympus High, children find an unparalleled atmosphere of “Fun Learning” with exciting activities. We strive to make each child a complete human being, self confident, sensitive, curious, who will be an asset to the society, nation and the world.

Above all Olympus High offers emotional comfort and the best of mentoring to students under the able guidance of trained teachers. At Olympus High, no dream is impossible to achieve. Let us together, build the most promising future for our children.

Mrs. Sushila Joshi
Principal

A school children love to go to

Learning is fun at Olympus High. Children find field work and activity-based assignments to spark their curiosity and enhance understanding.

LEARNING IS FUN

Worksheets | Quizzes

Reading corner | Art and puppet shows

Art and science exhibitions

Competitions like fancy dress, story telling

Flash cards | Field trips | Experiments

Well-planned to raise performers

The school pays complete attention to the needs of each child. The entire learning process is therefore planned systematically to give children holistic understanding of the subjects, as well as to raise their curiosity and confidence.

Smart ways to make smart learners

Overall development
for all- round
